

HIGH ALTAI

There is perhaps no sheep in the world that can rival the *Ovis ammon ammon*. Characterized by its heavy bases, this hunt is considered the Holy Grail of sheep hunting. High Altai Argali permits are very limited and only a few are issued each year. Call for updated information.

Safari Outfitters opened sport hunting in this magnificent country in 1955. No one in the industry can match our experience sending sport hunters to this proud nation! Our areas are the best in the country - our success on big rams envied!

SCI, OVIS & ISHA acknowledge three individual hunting locations in Mongolia for record book purposes. The three locations are: High Altai Argali (*Ovis ammon ammon*) in the West Altai Mountains; Hanghai Mountain region, aka Mid-Altai sheep, and Gobi Argali (*Ovis ammon darwini*).

GOBI ARGALI

The Gobi Desert is a land of magnificent desolation and stark beauty. Much of the Gobi is relatively flat land with scarce vegetation. The Gobi is considered high desert, but is not very mountainous. A four-wheel drive vehicle is used to get you around the cuts, ravines, canyons, and high plateaus.

We offer a 13-day schedule from arrival in Ulaanbaatar (UB) arriving day 1; departing day 13.

This hunt includes meet & greet at the Ulaanbaatar airport, transport to/from the airport, all hunting services including 4-wheel drive vehicle, interpreter, hunting guides, cook and camp assistants, accommodations in a comfortable ger (yurt) or spike camp as needed, 2 nights at a hotel.

Ulaanbaatar, Mongolian invitation and field preparation of your trophy. Not included are airfares (as required) within Mongolia, CITES Export Certificate (\$100), excess luggage charges and 20 USD firearm permit (payable in UB).

HANGHAY ARGALI

We have worked with our Mongolian partners many years. We both understand the need to limit permits in our exclusive areas in order to maintain quality - thus the reason we have taken such spectacular trophies.

We offer a 13-day schedule for a Hanghay Argali arriving Ulaanbaatar day 1; departing day 13.

This rate includes meet & greet at the Ulaanbaatar airport, transport to/from the airport, all hunting services including 4-wheel drive vehicle, interpreter, hunting guides, cook and camp assistants, accommodations in a comfortable ger (yurt) or spike camp as needed, 2 nights Hotel in Ulaanbaatar, Mongolian invitation and field preparation of your trophy. Not included are airfares (as required) within Mongolia, CITES Export Certificate (\$100), excess luggage charges and 20 USD firearm permit (payable in UB).

Additional Animals that May be Available: Gobi ibex, Whitetailed Gazelle and Blacktailed Gazelle.

ROEBUCK

Enjoy a really fun 3-day Roebuck (aka Siberian Roe Deer) hunt. You'll drive from Ulaanbaator (UB) about 400 km (5-6 hours) to a private free-ranging ranch, hunt and then return to UB. Roebuck quality is good ranging up to 5x5's. Plan on a 5-day schedule from UB including travel.

The season is from late August but the best time to hunt is in early September during the rut.
