

# Siberian Ibex (Mongolia)

## ROEBUCK

Enjoy a really fun 3-day Roebuck (aka Siberian Roe Deer) hunt. You'll drive from Ulaanbaatar (UB) about 400 km (5-6 hours) to a private free-ranging ranch, hunt, and then return to UB. Roebuck quality is good ranging up to 6x6's. The hunt includes transportation from UB to hunting area, accommodations after your arrival in UB, guide and interpreter. Hunt does not include the trophy fee on one roebuck. Plan on a 7-day schedule from UB including travel. A 2nd roedeer can be taken at on a trophy fee basis.

The season is from late August but the best time to hunt is in early September during the rut.

## Gobi & Altai Ibex Combination Hunt:

We offer a combination hunt for the Gobi Ibex and the High Altai Siberian Ibex (1x1) and (2x1). Non-hunters are extra. This trip is available on a 14-day schedule from arrival in Ulaanbaatar and includes a 5-day hunt in the Gobi Desert and a 5-day hunt in the High Altai Mountains.
