2009 Hunter Comments:

"This hunt was everything that is advertised. The camp was very good to be in such a remote region. The guides were knowledgeable of the game and the area. Do not come here thinking you are going to loose weight. The camp cook did an outstanding job. The staff was on the spot to help anyway possible. Sasha did an excellent job of taking care of paper work and procedures. This can be a rather physical hunt if you encounter snow, as we did. The horses were excellent but they have their limitations also. I would recommend this hunt to anyone who thinks he or she is up to the challenge. Excellent hunt . . . I would do it again!"

G.J.

"This was a great adventure. The guides were very good. The horses were well trained. The camp was good & comfortable for being so remote. The food was good & all camp staff worked hard. There was plenty of game & I got a great sheep, ibex & wolf. The horses got you were you needed to go so it was not a real physical hunt, although you are hunting at fairly high altitudes – between 12,000 & 13,000 feet. I hunted 6 days and it was very cold. Getting in & out of camp was an adventure but they were very well prepared to get you there. Thanks for putting this together for me. This truly is an adventure of a lifetime."

J.W.

"Guides were very good. Great job. Camp services – heat, lights, beds, place to eat very good. The cook did a very good job – lots of food. All the people very nice."
