

Serving Sportsmen Since 1952

We send members of our Moscow staff and gear to upgrade the service provided by the Kamchatka Reserves. Our staff stays in the Kamchatka region for the duration of the season. Every client is met upon arrival in Petro. One interpreter is provided per camp.

CAMP ACCOMMODATIONS:

Accommodations are in tented camps, which are equipped with American camping gear such as tents, stoves, cots and lanterns. Food is plentiful but basic. Generally, two hunters share a spike camp in the sheep area but each is guided 1x1.

Sample Itinerary

- Day 1 Depart Anchorage, AK
- Day 2 Arrive Petropavlovsk/transfer by road and overnight
- Day 3 To hunting camp by chopper
- Day 4 - 13 10-hunting days
- Day 14 Depart hunting camp/return to Petro
- Day 15 Petro to Anchorage, arrive same day

More information on this hunt including references, maps, gear list, etc. will be provided upon request.

Breaking Records... it's what we do!

Stan Atwood, CA

John Thodos, IL

Greg Pope, CA

Our Kamchatka partners have the ONLY area on Kamchatka that produces top trophies. We have been 100% since 1990 - the ONLY company that can make this claim.

Make just 1 trip to Kamchatka - join TEAM SAFARI!

We opened sport hunting on Kamchatka in 1990. Throughout these many years, we have hunted bighorn in all regions of the Peninsula, but have centered our operation close to Petropavlovsk the last 15 years. We have huge areas that have produced rams up to 44". The scenery is magnificent, the hunt is challenging and the Russians aim to please.

Kamchatka Bighorn look very much like North American Bighorn sheep. They are large and brownish-grey colored. The white rump patch is rather small and is divided by a dark dorsal stripe which continues down the tail. Head and neck may show a varying degree of grayish-white. The average trophy size is 34-38", with a number of trophies taken in excess of 40".

Kamchatka Bighorn inhabit the central ridge of the Kamchatka Peninsula south of the 60th parallel. Safari Outfitters was the first to open the hunting in this remote land in 1990. Since then, we have sent 50-60% of those who hunted sheep on the Kamchatka Peninsula.

This hunt offers the right amount of challenge, with the terrain resembling that of the Kenai Peninsula in Alaska. The altitude is not a factor, with the base camp at 3000-4000 feet. All hunts are conducted on foot and transferred by vehicle.

Ron Vollrath, MN

The numbers of sheep are not great due to severe winter conditions, but this has not prevented us from achieving an almost 100% success on our Kamchatka hunts to date.

SEASON: The season is from August 1 through October 1.

PRICE: We offer a 10-day hunt at \$28,500 (minimum of 3 hunters per group), all inclusive from Petropavlovsk except hotels as needed. All hunts are conducted on a 1x1 basis. Your guides are seasoned hunters and also good skinners. Maximum of 2 hunters per camp. Non-hunters at \$3,500.

Loren Kohnen, MN
