2020-2021

SPAIN

Spain is one of the best destinations for hunting, there are 15 different species of big game hunting and several of small game. It is perfect also a perfect destination for non hunters to do tourism while the hunter goes hunting. When we organise a hunting trip around Spain, if the hunter wants we can organise some tourism along the way. There are impressive castles, beautiful villages and great food and wines to discover in Spain.

The big game species we can find are: 4 types of ibex (Gredos, Beceite, Southeastern and Ronda), 2 types of chamois (Pyrenean and Cantabrian), red deer, wolf, mouflon, fallow deer, wild boar, barbary sheep (aoudad), balerean boc and feral goat. Many of these species are valid for the SCI awards. Regarding the small game we have red partridge, pheasants, quails, rabbits and hares.

The hunting can be done with rifle or with bow. The areas that we use for ibex, chamois and aoudad are free range, for the rest of the species are mainly fenced and their sizes goes from 4.000 to 15.000 acres.

CACERES PROVINCE

GREDOS

Our main area is located around 200 km south west from Madrid, in Madrigal de la Vera, Caceres. It is right in the middle of the south face of Gredos and it has over 20.000 acres, 100% free range and it borders one of the National Reserves. The population and quality of the animals and trophies are really high and it is the best private own hunting area in Gredos. The hunting is done by stalking, we reach the hunting area by car and then we can go walking or riding horses. The hunting seasons goes from September 1 to the end of April and the best season is during the rut in November and December.

RONDA AND SOUTHEASTERN IBEX

These 2 species are the smallest ones of the 4. Our hunting areas are around Quentar for the Southeastern ibex and Velez Malaga for the Ronda ibex. The hunting area of the Ronda is in a Natural Park so the hunting is very limited and so the population of animals is very good, in fact it is considered the best one of Spain.

3 hunting days per animal \$1.350
(includes accommodation, meals, transport during the hunt and guides)

Trophy fees:

RONDA

- Male up to 25,6 inches: \$7800

CHAMOIS

In the Pyrenees the hunting season goes from October 15th to January 31st and from March 1st to May 15th and for the Cantabrian chamois it goes from April 1st to November 30th. The Pyrenees area is around 1,5 hours drive from Barcelona and the Cantabrian chamois between 4 and 5 hours drive north of Madrid depending where we hunt.

It is a mountain hunt so the hunter should have a good physical condition, although there are some areas where we can use the car to move around so this make things much easier for the hunter that cannot walk.

There is no limit in the size of the chamois, we can expect at least silver for the Pyrenean and bronze for Cantabrian although we have a high chance for silver.

3 hunting days with 1 Cantabrian chamois included \$7500

3 hunting days with 1 Pyrenean chamois included \$8500

6 hunting days with 1 Cantabrian and 1 Pyrenean chamois included \$15,000
