Breaking Records... it's what we do!

One of the largest and most successful safari operators in Mozambique, a safari with this outfit is sure to please the first time or seasoned hunter of Africa.

Safaris are conducted in the Niassa Reserve which is commonly recognized as one of the very best places to hunt in Mozambique. You will experience an ethical "old" style African hunting safari led by a team of professional hunters. Yielding exceptional trophies is the order of the day. If you are looking for a fine Sable, this is the place to hunt. Two concessions are hunted, Block B / L8 of the Niassa Reserve and the Coutada Nicage of the Cabo Delgado Province. Together these concessions total approximately 600,000 acres with 36 miles of the western boundary being the Lugenda River. This safari company controls 17% of the Mozambican quota for conservation areas and consequently is a key partner in the conservation of Mozambican wildlife through hunting safaris.

Hunting season runs from June to November in the Niassa Reserve. Buffalo and Plains game get easier further into the season because the brush is less dense however the temps are higher. Cat hunting is best from June to September which are the cooler months. Cats are hunted in daylight hours.
