

One of the oldest and best safari companies in Namibia and Safari Outfitters is proud to have represented this great outfit for many years...longer than any of our other African outfitters. Highly respected in all of Africa by its peers, you would do well to seriously consider a hunt with this long established safari company. A great destination for one or two hunters, a group hunt or family safari. On an 80,000 acre property, surrounded by all the big game such as Elephant, White & Black Rhino,

Hippo, Leopard, Lions and Cheetah as well as all the other species....your hunt will truly be an African experience. Once you leave the hunting lodge, you will be on the hunting grounds. The outfitter has another 120,000 acres of surrounding hunting concession area. Most of your time will be spent out hunting and not driving from one area to another. There are 25 huntable game species here and without a doubt, one of the premier plains game hunting operations in all of Africa

Breaking Records... it's what we do!

The hunt is configured according to your very personal requirements and expectations. Elderly and disabled clients are able to approach most species by hunting car but others will hunt by the spot and stalk method. Parents taking their children on a first time hunt can rest assured that the Ph's are excellent mentors of the hunting trade. Many clients bring their families. Non-hunting observers are welcome to come along on the hunting adventure.

Accommodations are very nice lodge style with ensuite bathroom facilities. Rooms overlook a water-hole where many animals come to drink.

The hunting season is February through November. Rifles are available for lease if desired. This outfitter is a registered dip & pack company so your trophies will remain on their property until shipped to the final destination. City of arrival is Windhoek were clients may or may not need to overnight depending on their air schedule. Staff will meet you at the airport and either escort you to your hotel and pick you up again in the morning or continue on to the hunting area. Side excursions such as visiting the famous fossilized dinosaur tracks may be arranged. Photographic game drives can be arranged for yourself, non-hunting friends, children or spouse.

As a driving force in conservation, this company takes in young Black and White Rhinos to be raised and protected either in their surrounding areas or moved to locations where the numbers are low. Some of your hunting dollars are used for this very worthwhile program.
