UGANDA

Breaking Records... it's what we do!

As a relatively newcomer to the hunting industry, Uganda has rapidly built a reputation for producing exceptional trophy animals. This outstanding outfitter is a big part of the 'short' Uganda hunting Legacy, having produced world record sitatunga, plus record Nile bushbuck.

With a hunting season open from January through November, a main concession consisting of over 19,300 square miles, plus a 200 square mile wild-life reserve, this conservation minded outfitter has it all. East African sitatunga, island sitatunga, Nile buffalo, Uganda kob, Nile bushbuck, Jackson's hartebeest, Ugandan defassa waterbuck, oribi, East African white faced bush pig and warthog are the primary species hunted.

In addition, several side excursions are available prior to or after your hunt, including fishing at Lake Victoria or Murchinson Falls. Gorilla tracking in Bwindi National Park is also a big-time favorite excursion.

Kampala is your destination city and is accessed via a commercial flight from Entebbe. From Kampala, a ground transfer or optional air charter is required to reach the lodge.

Whether hunting out of the lodge with grass thatched bungalows or a tented fly camp along the river, you will truly enjoy your hunting experience in Uganda. This A+ outfitter and his outstanding staff will do everything possible to make your Ugandan hunt a truly memorable one.
